NO. 124

PEN PORTRAITS

Of the Law-Makers of the State of Nevada.

HON. J. POULADE.

Senator (hold-over) from Lincoln county and President pro. tem. of the Senate, is beyond doubt one of the most remarkable young gentlemen in the State; a native of Oregon and the only son of fond parents, nothing was spared to encourage him in accomplishing the ends he aimed at. A tall, handsome, well-proportioned native of the Pacific Coast, he stands out in this body a perfect embodiment of what the future generations of our undeveloped empire, may look forward to. He has all the characteristics of the native both physically and mentally. A large, broad, intellectual head crowns a pair of shoulders that many a pugilist would be proud of, while his hair is jet black and a moustache of a light brown color adorns his face, once seen will never be forgotten. His eye-brows are of the average size but protect perceptive faculties that give their possessor quite an advantage over his less observant and fellow. His eyes are brown, large and intelligent. He protects them by wearing glasses. It is not, I should infer, from any weakness so much as it is a desire to preserve their strength for future use in his strong desire to further cultivate a mind already stored with learning, that he wears them. He has a roman nose, ruddy complexion, round muscular ears and a face which, on the whole, indicates the nationality whence he sprung, to be from the north of France or somewhere in Brittany. He is only in his 34th year and married, his lovely wife accompanying him here during the present session. He is as plain and unassuming as he is learned and dignified. The former features distinguish him on the public thoroughfares, while the latter add laurels to his demeanor when presiding over the deliberations of the Senate. He has a clear, ringing, unalloyed enunciation when speaking and imparts confidence always to his more faltering and less experienced colleagues by virtue of the impartiality of his rulings. He has a broad, clear-cut chin bespeaking for him courage, readiness, attention and an adaptability to surrounding circumstances which ever enable him to steer clear through any if not all the knotty parliamentary intricacies that naturally arise in bodies of this nature, which is simply astonishing. He has a very thoughtful appearance and should have followed the law, although as a matter of fact he has followed merchandising. The young men of Nevada might learn a profitable lesson from the life just opening up before this promising "son of the Golden West," because it is to his honesty, sincerity and unwavering adherence to principle alone must be attributed the apparently phenomenal success he has achieved backed by an industrious exertion that always brings its own reward. He is a Republican Senator now but not many moons hence I expect to see him in the American Congress the pride of our rising young commonwealth.

HON. A. D. GRIFFIN.

Democratic Assemblyman from Washoe county like his friend Benitt from Nye, alongside of whom he sits in the Chamber, is another gentleman with laughing blue eyes and an ever pleasant countenance. He is tall, but not very stout, bearing witness by his make-up, that he has not given his birthplace wrongly, viz, the State of Maine. The men from Maine as a rule, are a hardy race, and Mr. Griffin is no exception to the rule. His face bespeaks for him an honesty and sincerity of purpose that a single glance enables the observer to detect without effort. In fact, such faces as his are rarities in Legislative Assemblies; as I should judge that the enjoyment of the emoluments appertaining to the office, would not justify the expenditure in the securing. He is brimful of good nature; it beams forth from every lineament of his intelligent face, and is ever accompanied by a smile which makes every one feel perfectly at home in his presence. His hair is gray as are his chin whiskers. He does not wear a moustache but shaves clean every day. He has a high receding forehead, and large round ears with heavy lugs which betoken all I have said of his disposition above. His nose is straight with a Grecian base and indicates strength and foresight, with a love of adventure and no doubt added to a clear cut, square chin adds courage and fearlessness to his other good qualities of head and heart. In this body he has given most of his attention to questions of irrigation, immigration and all matters pertaining to the public domain as well the holdings of small farmers whom he endeavors to protect from the encroachment of large corporations by legal enactments. He does not rise often but is attentively listened to when

he does. He is married; is a miner by occupation, and loves the good things of this life as well as anybody here, but does not enjoy them alone. He has traveled around the world twice in company with his good wife and true, and takes great pleasure in speaking of the land of his ancestors, whence came the progenitors of the writer, and which he says is the loveliest spot on earth "E Pluribus Unum Erin Go Bragh."

HON. ALEX FRASER.

Republican member from Eureka county, first saw the light of day among the Grampian hills of bonnie Scotland and is a splendid representative of that hardy and music loving people. He is verging on 40 years and bears his summers well. He is tall and has an easy-going, bashful-sort-of-way about him which endears him to everyone with whom he comes in contact. He is quite bald as is his colleague Mr. Beebe, but what hair adorns the sides of his large, round, well-balanced head, is of a dark brown color, while his moustache and chin whiskers are slightly tinged with gray. He has a large intellectual celtic nose, the base of which indicates physical strength and an appreciation of a good dinner. His eyes are gray-blue, with the latter predominating indicating a love of the beautiful in both art and nature and with a pair of ears of the harp-like formation conclusively convince me that if he was put to the test he could sing many of the "wild songs of his dear native land" with as much ease as Charlie Wallace destroys Taffy To'u. He has a broad chin and high forehead. The whole face denoting its owner as having some of the spirit of adventure of his countrymen in him; while good nature, cautiousness, courage and fondness for good cheer all stand out prominently in it. In this body he has been slow to act, carefully distinguishing all his undertakings. He has an easy, plain way of putting his arguments that are generally successful with his colleagues. He is always in his seat, and although still single and following mining I would not be surprised to learn of the arrival in the near future at his lonely cabin of a hale, hearty and lovely young lady to preside over its future destinies. He is undemonstrative, clear-headed and perceptive. No measure appertaining to mining escapes his notice, and he will return to Eureka to be warmly welcomed by his constituency for having done his duty.

What True Merit Will Do.

The unprecedented sale of "Boecher's German Syrup" within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of coughs, colds and the severest lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a cough and leave the disease still in the system, but on the contrary, removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctors' bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cents, large bottles.

When baby was sick, we gave her Castoria,
When she was a Child she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

FRIDAY, FEBRUARY 23, 1887

Judging from the weakness of the mining stock market and the number of shares being thrown on it daily, the fact is becoming apparent that dabbles are tired of holding securities that represent properties of which they know but little, if anything. Secretaries of mining companies too frequently manifest a disinclination to give out information for publication. If a reporter calls on them for statements to enable him to make up his mining reports, he is very often informed that "there is nothing new to report." If he is persistent, he is generally told that the books of the company are open to stockholders, or something to that effect. What-ever the rights of the public may be, these gentlemen should remember this: Where stocks are traded in regularly, secretaries of companies would find it rather difficult to keep investors informed of the exact condition of properties through the books of their companies, since the increase or decrease of value in mining properties is shown by the daily work done and by the reports sent in by the superintendents. The easiest way to reach stockholders with information is through the columns of the newspapers. And then, even though the public in general may have no rights which secretaries of mining companies are bound to respect, there is a class of the public known as "would-be investors," that is entitled to some courtesy. Gentlemen who wish to invest in mining stocks cannot be expected to do so blindly, and most of them depend largely on the papers for their information concerning properties. Open the doors, gentlemen, and do not be afraid to let people know what you are doing.

Mr. Fraser, of Eureka county, introduced in the Assembly on the 21st instant a bill to impose a license upon every burdy-gurdy house, dance house or concert saloon in the State, of \$500 for each and every three months, in addition to the usual retail liquor license. The bill passed the Assembly yesterday, and is now in the hands of the Senate. Its provisions are aimed principally at Eureka—in all probability the most immoral town in the State. The fact that men and women there carrying on businesses of a strictly legitimate and honorable character complain of the scarcity of money the year round while three and four concert saloons and dance houses flourish, tells but one part of the story. Boys and young men are debauched by these dens, and the better tone of society is thus impregnated. Why these establishments have been tolerated this long is something others in a purer atmosphere cannot understand. Mr. Fraser's bill is meant to remedy the evil, but the blow is not aimed right. Why license the dens of infamy at all? Abolish them altogether.

The war feeling in Europe has reached the stage of universal preparation. The first gun may not be fired, but every nation, down to little Belgium, has it loaded for firing. When it is fired all Europe and much of Asia will rock with the tread of armies. It is not safe to count on the neutrality of any European nation, much less of England, if peace be once violated. National cowardice nowhere exists; given a good or good seeming cause, and any nation will fight, and England will have good cause presented to her if a demand for the neutrality of the Suez Canal is made. She is the largest stock owner in that waterway. France built it, and England bought it. It is almost as much her private property as the Welland Canal. She invested her money in it that she might have a waterway for her gunboats fully as much as that she might have speedy commerce with the wheat and cotton of India. No proposition looking toward the neutrality of the waterway of the isthmus will be accepted by England.

THE INDIANA DEADLOCK

A Two Hundred Thousand Dollar Fire in Baltimore.

Unable to Stand the Strain.

PITTSBURG, February 23.
Last Saturday evening Peter Eckert, boarding at 128 Wylie Avenue, was arrested for disorderly conduct and committed to jail for 10 days to determine whether he was insane or not. He has been raving mad since his imprisonment and is now confined in a padded cell. Chief Blackmore visited his room last evening and made some startling discoveries. The room presented the appearance of a workshop of a blood-thirsty anarchist. In one corner was a square box securely fastened to the side of a trunk, and in the box was what the officers supposed to be an infernal machine, cylindrical in shape, about 18 inches long and four or five inches in diameter. Scattered about the trunk were particles of gun powder and bullet moulds. In various parts of the room were found tools of all sorts; electric batteries and other electrical appliances, also 68 glass tubes, ranging from one inch to 30 inches in length, and said to be used in the manufacture of nitro glycerine. Revolvers and guns also were scattered about the apartment. The landlady says Eckert came to board at her place three months ago, and seemed like a quiet, inoffensive German. He had a plenty of money, and earned \$30 a week at the Union Switch and Signal Co. His employers speak of him as being industrious but peculiar. Chief Blackmore is of the opinion that he is an anarchist, and has gone crazy trying to invent some terrible instrument of destruction.

The Indiana Deadlock.

INDIANAPOLIS, February 23.
There was no renewal of yesterday's turbulent scene about the capital this morning. Colonel Robertson called at the Senate doors this morning, but was refused admittance by order of the Democratic majority, and he then retired. The Republican Senators pursue their intention of taking no part in the proceedings, simply ignoring the majority and President pro tem Smith. A resolution was offered by Senator Bailey this morning, asking the Supreme Court to act as arbitrators upon the claims of Robertson and Smith, but the Republicans say they have nothing to submit to arbitration. The Supreme Court is not likely to take any notice of the matter.

Candy Factory Burned.

BALTIMORE, February 23.
The six-story warehouse of Durby & Co., candy manufacturers, was burned this morning. Within 20 minutes after the start of the fire, the walls had fallen in. A four-story building occupied by the same firm, in the rear of the warehouse, was also burned. The loss on the building and stock is about \$200,000, nearly covered by insurance. It is supposed the fire originated from a gas jet in the cellar.

FOREIGN DISPATCHES

Latest from Zanzibar.

LONDON, February 23.
Henry M. Stanley telegraphs from Zanzibar, recounting the seizure of the Sultan of Zanzibar's steamer, Kiliza, and the bombardment of Tungi by the Portuguese. In the opinion of Stanley, Portugal is acting in a high-handed manner, relying on the interference of Germany and passiveness on the part of England. Stanley says it will be most injurious to the valuable trade of England and Germany, which together ought to cry "hands off" to Portugal before irreparable mischief ensues.

Stanley says, in reference to his expedition for the relief of Emin Bey, that the party has embarked on the steamer Modura. The expedition consists of nine European officers, 61 Soudanese, 30 Somalis, 620 natives and 20 natives of Zanzibar, three interpreters and Tipper Tib, the Arab trader, and 40 of his followers. Couriers have gone overland with letters to Uganda, while others have been sent to Stanley Falls, to meet the native chiefs.

WESTERN DISPATCHES

Yesterday's Storm.

SAN FRANCISCO, February 23.
Dispatches received to-day report a heavy fall of snow in the Sierras for the 24 hours ending at 7 A. M. to-day. Six inches of snow fell at Colfax, 12 inches at Gold Run, 12

inches at Alta, 14 inches at Blue Canyon, 12 inches at Emigrant Gap, 13 at Cisco, 18 inches at Summit, 24 inches at Truckee, 9 inches at Prosser Creek, and 15 inches at Boca. Intense cold also prevails in this region. The thermometer ranged 16° below zero at Truckee, 24 below at Prosser Creek, and 26 below at Boca. The weather is now clear.

New Edition—Settler's Guide.

Henry N. Copp, the land and pension lawyer of Washington, has just issued the twelfth edition of his Settler's Guide. It is an indispensable book for all who are or expect to be interested in public land. Settlers will save money by purchasing it, and all who expect to take up land should get posted on the several laws under which land can be entered. A chapter, illustrated with numerous cuts, shows how to tell township, section and quarter-section corners, and explains the system of surveys. It gives Commissioner Sparks' orders and late decisions and instructions, and full instructions about the homestead, preemption, timber-culture, desert land and other laws. The price of the book is only 25 cents.

It will tell you who is entitled to enter land, how continuous your residence must be, what improvements you must make, what affidavits you must swear to, all about contests, and on what grounds they can be commenced; also about State lands, stone and timber land, mineral lands, desert entries, saline, railroad, coal, townsite and other lands, scrip, warrant and other entries, etc. Its purchase will save you money and trouble, as erroneous statements, circulated by conversation among settlers, may, if acted upon, cost you contest, perhaps your land and improvements.

The Eureka Con.

Low Davis, foreman of the Eureka Con. Reduction Works, passed through Reno to-day's east-bound express train. He had been in San Francisco purchasing more machinery for the new refinery being constructed by the company. During the past two months the Eureka Con. Company has been one of the heaviest bullion shippers in Eastern Nevada, due in no small degree to a process discovered by Mr. Davis for working the company's speiss, of which it has upwards of \$1,000,000 worth. The process is said to work speiss cheaper to its assay value by ten per cent. than that adopted by the Richmond or any other company on the coast. The Eureka Con. mine is reported to be looking well, a new discovery of ore having been made recently on the 1300 level, that promises well.

An Indian Rancher Burned Out.

While away from home, the cabin of Captain Lazarus, a Humboldt Co. Indian rancher, took fire and was entirely consumed, together with 10 sacks of seed wheat, and 15 sacks of seed barley, besides two sets of harness. The Government should replace the burned property and give the Indian a chance to make an honest living.

A Lost Man Found.

The man who left Willow ranch with Steinberger and another a few days ago on a deer hunt, and who was thought to have perished, was found by those who went to his rescue at G. W. Mapes Fort Sage stock ranch, where he had found a plenty to eat.

A Burdensome Debt.

France now has a total debt of about \$7,200,000,000, or twice as large as that of the United States at the close of the war, and six times as large as our present interest-bearing debt. The French debt is nearly \$200 per head of her population, while that of the United States is less than \$20 per head. There is an interest charge of \$140,000,000 per year, besides annuities and other burdens not clearly stated, amounting to nearly as much more. The annual revenue wrung from the people is \$850,000,000 and yet that is insufficient to meet the necessities of the Government.

Merit Will Tell.

Was never better demonstrated than when "Fryer's Abietene Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pluniger is agent for these celebrated "Abietene Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

It is agreeable to the taste, acceptable to the stomach, harmless in its nature, painless yet prompt and thorough in its action. For sale by Wm. Pluniger, Reno, Nevada.

A Noisy Crowd.

The depot was the scene of considerable bustle and noise this afternoon from 12:45 to 1:45 o'clock, about 50 Chinamen collecting there with more old traps and rolls of blankets than enough to fill a car. They were awaiting transportation to points along the Carson & Colorado railroad, where they go to keep the tracks clear of snow.

Stupid Young Men.

An extract from a Tuscarora girl's diary reads as follows: "Young men don't know what their arms are made for, and consequently us girls have got to lace tight."

Suicide.

Dr. Flint's Heart Remedy has saved more lives by timely use, and has kept from suicide or the insane asylum more victims of nervous disorders, than all the physicians with their pet methods of treatment. At druggists. \$1.50. Descriptive treatise with each bottle. Address J. J. Mack & Co., S. F.

Ayer's Sarsaparilla is the best medicine for everyone in spring. Emigrants and travelers will find it an effectual cure for the eruptions, boils, pimples, eczema, etc. that break out on the skin—the effect of disorder in the blood, caused by sea diet and life on board ship.

Borax.

Said the owner of large borax fields in Esmeralda county to a GAZETTE reporter yesterday: "The prices paid at present for borax are hardly calculated to create an immediate rush for such properties. They are very low, and have been for years. Yet I do not apprehend lower prices. I rather look for a gradual appreciation, owing to a perceptible increasing demand for the article. New and practical uses for it are discovered every now and then. The latest is to pack fresh meat, fresh fish, etc. with it instead of salt. A large shipper of fresh beef in Chicago recently told me that he finds it much superior to salt for preservation purposes, and it can be readily cleaned from the meat and leaves behind no taste of it that is noticeable. He predicts that hundreds of tons of borax will shortly be used for this purpose alone every year."

Money Lake Items.

JANESVILLE, Cal., February 21.

Business is very slack since the storm, and news items are scarce. The snow settled considerably during the past week. Saturday morning the thermometer stood at two degrees above zero. Snow commenced falling again last night. At this writing, 12 o'clock M., there is about 10 inches of new snow and it is still coming. Stock owners begin to feel a little anxious about the hay supply.

Mrs. J. R. Dunn is quite sick with hay fever.

The schools in this and Lake district have closed for the present on account of the deep snow.

FELIX.

Death of an Estimable Lady.

The sister of Assemblyman Rice, Mrs. George Moody, died at 12 o'clock Tuesday night at Spring Valley, Lincoln county. Mr. Rice is greatly distressed over the sad news, as he cannot, on account of the storm, communicate even by telegraph with the bereaved ones. To reach home, where his sister died, would take seven days, counting on no interruptions in the journey.

Humboldt Beef.

A Silver State correspondent writing from Lovelock says that Joseph Marzen recently made a large sale of beef cattle to San Francisco parties, and that the Marzen Bros. and D. D. Granniss are feeding a large number of cattle with the expectation of advanced prices.

PERSONAL.

Commissioner Sparks of the United States Land Office weighs 250 pounds.

Messrs Bender and Aider, of the V. & T., arrived from Carson on the noon train to-day.

John W. Mackey, Dick Day, Hawk Smith and Bob Pixley were among the passengers for the Bay last night.

Hon. R. L. Horton, an ex-member of the State Legislature from Austin, was among the passengers for the Bay last night.

Father Nulty was reported last night to be dying in Nevada City. The reverend gentleman was for several years a resident of the Comstock.

Mr. N. Levy, of the prominent dry goods firm in Virginia City and Eureka of Morris & Levy, was among the passengers on the west-bound train last night for the Bay. Mr. Levy contemplates establishing a branch business house in Reno this Spring.

How to Make Lively Times.

The Orange Tribune has this to say upon the above title: "If you want your town to improve, improve it. If you want to make your town lively, make it. Don't go to sleep, but get up and work for it. Push. Get in. Advertise it. Talk about it, and talk favorably. If you have any property, improve it. Paint your houses; clean up your back yard. Make your surroundings pleasant, and you will feel better and your property will be worth more dollars in the market. If you are doing reasonably well advise your far-away friends to come and invest near you. Work steadily for your home place and home interests. Trade at home, help your home dealers. Keep your money at home as much as possible, and it is likely to help you in return. The successful towns of Southern California have been made successful by the property-owners pulling together. Public improvements are an investment that pays. Don't waste your time over some dirty neighborhood quarrel, and hold back your aid from some good object through spite, but work for some good, and you will find yourself benefited. Get at it. Wake up. Rustle. There is no time to be lost, and every little helps. Toot your horn, and toot it loud."

An Unfortunate Man.

Edward Lee, of Stillwater, Churchill county, who was, a few days ago, found some four miles east of Wadsworth with his feet frozen, and taken to the latter town for medical treatment, was last evening brought to Reno and placed in the county hospital. Inasmuch as he claimed to be a resident of Churchill county, a telegraph message was sent this morning to the authorities at Stillwater for instructions. A reply was received, stating that Lee was not a resident of Churchill county, and consequently the authorities there had no instructions to give. The matter will be investigated. Lee's condition is such that it is feared both of his feet and ankles will have to be amputated.

The Storm East.

Parties in from the eastern part of the State last night report that on Wednesday there was at Eureka and Austin about a foot of snow, although the fall there the past week had been much greater. At Palisade it was about six inches deep and at Winnemucca and Battle Mountain but four inches.

Documents Filed.

Articles of incorporation were filed in the office of the Secretary of State at Carson, during the week ended last Saturday, as follows:

Incorporation of Elko & Idaho Central railway. Provides for the construction of a railway from Wellington, Idaho.

Incorporation of the Nevada Idaho & Montana railway. Provides for the construction of a railroad from Winnemucca to Camp McDermitt.

Belated Trains.

The east-bound express train due here this morning at 6:30 o'clock, did not arrive until 1:30 o'clock this afternoon on account of the heavy snowstorm yesterday in the Sierras east of Colfax, at which town the train was delayed until after daylight. As a consequence, the Virginia & Truckee express that leaves here at 7:45 A. M. for the Comstock did not depart until a quarter to 2 o'clock this afternoon.

A Beautiful Language.

The Empress of Austria has been learning the English language, and she surprised the Emperor the other day by calling out: "Oh dry up on that old chestnut!" The Detroit Free Press says she will find it a beautiful language when she gets down to the foundation.

Good Results in Every Case.

D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes that he was seriously afflicted with a severe cold that settled on his lungs; had tried many remedies without benefit. Since which time he has used it in his family for all coughs and colds with best results. This is the experience of thousands whose lives have been saved by this Wonderful Discovery. An End to Bone Scraping.

Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well. Ayer's Pills

A SAFETY STEEL CAR.

Which will Render Railroad Wrecks Less Dangerous.

A short time since a party of Boston capitalists leased a building, and they are quietly at work constructing a car which will apparently obviate all danger, or at least reduce it to a minimum, in case of all such accidents as have been recorded in the papers during the past month. They will build their car of malleable steel, instead of wood, and in place of the square box pattern now in use will form their cars in arcs of circles of different radii, the top, sides and bottoms being of different curvatures, the form of the car being thoroughly strengthened by hollow braces extending around the interior circumference thereof and by keelsons and cross-braces extending its entire length and width between the floor and the under side of the car.

Within this latter inclosure are placed the heating pipes, which are connected with the furnaces placed underneath the car and in rear of the trucks, hot air being used as a medium of heating. As a sound-deadening and non-conducting substance of heat and cold felt and air are to be used on the interior, covered with upholstery material, which is chemically treated to resist fire and which can be made up in a variety of shades, colors and styles. The seats, instead of depending upon screws to hold them in position, will be bolted both to the metal floor and the thick bottom plates to the car, thus providing, as far as possible, against their being torn up in a disaster.

If He Should, Indeed.

A young lady residing in the West End said to her father:—"Now, pa, are you satisfied? Just look at my testimonial—'Political economy, satisfactory; fine art and music, very good; logic, excellent.'"
Father.—"Very much so, my dear—especially as regards your future. If your husband should understand anything of housekeeping, cooking, mending, and the use of a sewing-machine, perhaps your married life will indeed be happy."

"Don't you think this bonnet is a little too young for me?" inquired Mrs. Shuttle of Job, as she was doing her final "prinking" at the glass before going out. "Never mind if it is. You won't have worn it more than six weeks before it will be 'too old' and you will want a new one."

\$500 Not Called For.

It seems strange that it is necessary to persuade men that you can cure their diseases by offering a premium to the man who fails to receive a benefit. And yet Dr. Sage undoubtedly cured thousands of cases of obstinate catarrh with his "Catarrh Remedy," who would have never applied to him, if it had not been for his offer of the above sum for an incurable case. Who is the next bidder for cure or cash.

A Wonderful Freak of Nature is sometimes exhibited in our public exhibitions. When we gaze upon some of the peculiar freaks of nature occasionally indulged in, our minds revert back to the creation of man, "who is so fearful and wonderfully made." The mysteries of his nature has been unraveled by Dr. R. V. Pierce of Buffalo, and through his knowledge of those mysteries he has been able to prepare his "Golden Medical Discovery," which is a specific for a blood taint, poisons and humors, such as scrofula, pimples, eruptions, swellings, tumors, ulcers and kindred affections. 200 LOTS FOR SALE

The manager of the Lake estate, in order to enhance the value of the property of the estate, as well as assist in

Building Up the Town of Reno

Has determined to offer two hundred fine building lots for sale, some of which are situated in the central part of town, and are very desirable for business purposes. The proposed site for homes is immediately south of the Truckee river, and its elevation affords a magnificent view of the mountains in the distance, and the valley and town near at hand. A more perfect place for an elegant home could not be selected. The soil is good and an abundant supply of water will be sold with each lot. The health of the locality cannot be questioned, as its elevation assures a perfect system of sewerage. Gas mains will be laid through the streets free of cost, for the benefit of those desiring to use them. It is also intended by the owners to lay out a park on the south side of the Truckee river, covering 20 acres, in which the public may enjoy the pleasure of driving, fishing and boating.

The educational advantages of Reno are well known, and the business prospects of the town are assured beyond a doubt. Purchasers of these lots may feel confident that the best of terms will be offered, and they will be fairly dealt with. For further particulars, address
